## **MISSION STATEMENT**

I am a passionate UI/UX Designer with a commitment to creating engaging, user-centered digital experiences. My mission is to design solutions that seamlessly integrate functionality with aesthetics, ensuring usability while meeting business goals. I aim to continue learning and evolving in design technologies, collaborating with diverse teams to develop innovative solutions that delight users. My focus on user experience design is not just a profession, but a passion for problem-solving and enhancing interactions with technology.

## **SKILLS**

Focusing on user-centered design principles, specializing in wireframing, prototyping, and user flow optimization. Skilled in interaction design and crafting responsive, mobile-first solutions for seamless user experiences across all devices. Expertise in collaboration and user testing to validate design decisions, with a strong understanding of HTML, CSS, and JavaScript to work effectively with developers. Experienced in building and maintaining design systems to ensure consistency.

Tools: Figma, Adobe XD, Illustrator, Photoshop, HTML/CSS, JavaScript, InVision, Prototyping tools.

## **EDUCATION**

Universitas Pembangunan Jaya

Bachelor of Computer Science (Informatics) | 2024

## **PROFESSIONAL EXPERIENCE**

Saveta

UI/UX Designer

December 2024

As the UI/UX Designer for Saveta, I have been responsible for the complete redesign of their company profile website. The focus was to enhance user experience through streamlined navigation, updated aesthetics, and improved product accessibility.

- Redesigned product catalog integration for better user interaction and faster navigation.
  - Optimized website for mobile devices, ensuring a seamless cross-platform experience.
  - Collaborated with cross-functional teams to ensure technical feasibility and timely delivery of features.
- 

Online Agency  
UI Designer  
October 2024

Collaborated with clients in various industries to design user interfaces that enhanced customer experience and increased conversion rates.

- Created interactive prototypes using Figma to visualize user flows and interactions.
  - Gathered client feedback and iterated designs based on user testing results.
  - Delivered responsive web designs that were implemented across multiple platforms.
- 

Pramana Craft  
UI Designer  
June 2024

Worked on the UI design of an e-Commerce platform, from initial concept to deployment, focusing on creating an intuitive shopping experience.

- Designed visually appealing product pages and a seamless checkout process.
  - Improved user interaction through intuitive product filtering and categorization.
  - Ensured the platform was accessible and mobile-friendly to reach a wider audience.
- 

PT. Sarana Verterinaria Jaya Abadi  
Frontend Developer  
*Maret 2022 – Mei 2023*

Worked as a front-end developer, ensuring the technical implementation of UI designs and collaborating closely with designers to ensure consistent user experiences across all platforms.

- Translated UI design concepts into fully functional front-end code using HTML, CSS, and JavaScript.
  - Collaborated with designers to implement design systems and UI components in development.
  - Optimized website performance, improving page load times and overall user experience.
- 

## **CERTIFICATIONS**

Network Designer – BNSP  
October 2023 – October 2026

## **SOFT SKILLS**

- Collaboration: Strong communicator with experience working in cross-functional teams.
- Problem-Solving: Ability to identify design challenges and come up with creative solutions.
- Adaptability: Continuously learning new design trends, tools, and methodologies.
- Time Management: Skilled in handling multiple projects and meeting deadlines.
- Leadership: Capable of mentoring junior designers and leading design initiatives.

## **TOOLS & TECHNOLOGIES**

- UI/UX Design Tools: Figma, Adobe XD, Sketch, InVision
- Front-End Technologies: HTML, CSS, JavaScript, Vue.js
- Collaboration Tools: Slack, Trello, Google Workspace
